Speed Limit Increase For NTVs

United States Army, Europe, has announced that the speed limit for non-tactical vehicles under 7,000 pounds gross vehicle weight designed to carry less than 12 passengers (cargo trucks, carryalls, minivans, panel trucks, sedans) has been increased from 65 miles per hour/105 kilometers per hour to 74 mph/120 kph on Autobahns and highways. All other classes of vehicles remain unchanged.

Drivers Should Be Aware Of Black Ice

Driving in Europe can be a difficult challenge, especially in winter conditions. Drivers might fail to recognize the deadliest danger of all winter driving - black ice. Black ice is clear water that has frozen on dark roads. It usually forms below overpasses, on bridges and in areas that are surrounded by trees. If drivers aren't aware of the black ice, their vehicle could hit a patch, causing them to lose control. Drivers may not realize that condensation such as dew freezes when

temperatures reach 32 degrees or below. This forms an extra-thin layer of ice on the road.

Pavement that looks dry but appears darker in color and clear or shiny should alert drivers to the possible presence of black ice. Driving at slower speeds, anticipating stops at traffic lights and intersections, and applying brakes sooner than normal will help prevent loss of control. For more winter safety visit www.hqusareur.army.mil.

CIF Offers Equipment Exchange

The Department of the Army now has new equipment that can be exchanged for the old. For those that have not been to the Central Issue Facility to exchange old items, the following is a list of what is available: Modular Sleeping Bag System; Vest Load Bearing; Gaiterneck; Wet Weather Suit, Improved and Belt Individual, Improved.

It is not mandatory to exchange any of these items. If a commander would like to have a unit exchange, an appointment must be arranged. Individual exchanges are on a walk-in basis. For info call Aaron Reagan at 430-7224/civ. 0711-680-7224, or e-mail reagana@6asg.army.mil.

Be Aware of Suspicious Packages

Community members need to be aware of suspicious mail and packages. Characteristics to look for include an unusual or unknown place of origin, no return address, an excessive amount of postage, threatening messages, an abnormal or unusual size, oily stains or powder, incorrect spelling of common words, differing return address and postmarks and peculiar odors such as almond, dried grass or peach. Never touch or move a suspicious package or letter, and wash hands immediately if you suspect the package may be contaminated. Immediately report incidents by calling the Stuttgart Military Intelligence Office at 421-2206/civ. 0711-729-2206.
